

UN-PS3520F

UNIQUE

*Automatic pocket welting & placket setting machine
with laser cutter*

■ Features

- Standard 100W power laser tube, with its own circulating water cooling system, the laser tube can work continuously for a long time
- The full-time silent suction device cleans the smoke and lint generated during the cutting process, which is safe, environmentally friendly and clean
- 7-inch LCD touch screen, voice prompts, advanced human-computer interaction, easy operation
- Automatic thread trimming, automatic thread wiping, electronic thread clamp
- Twice capacity rotary hook, saving the time of thread change
- Micro-oil needle bar, clean sewing
- For universal thickness of fabric, can be used for pocket opening of trousers, denim, uniforms, down jackets, cotton clothes, jackets, waistcoats, casual pants, etc.
- One machine with multiple functions, in addition to opening pockets, it can also be used to open plackets or pattern sewing (clamp needs to be replaced).

■ Technical Specification

Model	UN-PS3520F
Max. speed	2,700 sti/min
Max stitches for 1 pattern	8,000 stitches
Sewing area	350*200mm
Laser cutting area	210*195mm
Needle type	DPX17 18#
Lubrication	Automatic
Outer pesser foot height	32mm
Inner pesser foot height	20mm
Inner pesser movement	4-10mm
Foot lifter driven	By pneumatic
Power	750W
Air consumption	0.5Mpa 1.8L/min
G/N weight & volume	295/245kgs, 166*122*140cm=2.84CBM

■ Productivity

1000pcs / 8hours
