

UN-38A/62A series Heat transfer machine

UNIQUE

■ Features

- Digital temperature controller with an accuracy of $\pm 2\text{C}$.
- Aluminum cating of thermal element temperature.
- Automatic stable temperature system ensure reliable performance.
- Digital time controller alarms when it reaches the setting time.
- Silicon mat pressure is adjustable

■ Technical Specification

Model	UN-38A	UN-62A
Heating area	40*40cm	60*40cm
Heating Power	2.2KW	3.2KW
Working temperature	250°C	
Time delay	1-300S	
G/N weight & volume	35/33kgs, 69.5*42.5*41cm =0.121cbm	47/45/kgs, 69.5*65*41cm =0.18cbm
