

UN-ST-01A

4KW steam generator with steam iron

UNIQUE

■ Features

- The safest and most ideal steam boilers with the advanced, top security technology with high performance.
- It adopts a unique water tank design made of stainless steel.
- Automatic water filling, automatic water level detection, and strong steam storage capacity.
- It gives out steam in 9 minutes, and the 151 °C degree steam instantly smooth wrinkles.

Safety valve

Water tank probe

Float valve

Multiple cooling holes

Return pipe connecting flange

■ Technical Specification

| | |
|-------------------------|-------------------------|
| Model | UN-ST-01A |
| Heating power | 4KW |
| Reated steam pressure | 0.4MPa |
| Rated evaporation rate | 5.7kg/h |
| Nomal water volume | 5.4L |
| Full water volume | 7.8L |
| Rated steam temperature | 151°C |
| Iron type | Full steam iron |
| Power supply | 220V/1PH/50Hz |
| G.W. | 20/23kg |
| Packing size | 890×465×365mm= 0.151CBM |
