

## High speed automatic full-function feed off the arm sewing machine

## ■ Features

- The highest working speed feed off the arm machine so far.
- Automatic presser foot lifter, pneumatic puller, needle cooler, silicone box thread cooler, suction type auto thread trimmer.
- Presser foot with sensor for automatic pressure adjustment for sewing through bone position.
- The belt-type air-controlled tugboat is adopted, and the external gearbox has step-less speed regulation.
- GIC high hardness self-lubricating coating treatment reduces the wear of machine parts and prolongs the service life of the machine.
- Automatic oil supply system with circulating oil filtering and cooling. Oil is supplied to the upper and lower shafts at the same time, so that the lubrication of the parts is guaranteed
- Sinking type oil tank avoids oil leakage caused by air pressure at high speed, with better heat dissipation.

## ■ Technical Specification

Model	UN9688XH-PF/ECV-DPC-H9
Max. speed	5,500sti/min
Needles	3
Needle type	TVX5 21#
Stitch length	2.6-4.8mm
Stitch type	Chainstitch
Auto thread trimmer	Equipped
Lubrication	Automatic with circulating oil filtering and cooling
Power	550W
G/N weight	180/141kgs
Packing size	105*75*130cm=1.024 CBM
